Mr. John Fyson
Departmental Manager
Department of Methodology
London School of Economics

Dear Mr. Fyson,

I would like to be considered for one of the class teacher positions for the coming year in the Department of Methodology. I believe that I am well-qualified to teach on any of the following courses: MY451, MY452 and MY457.

As my (attached) CV makes clear, I have taken several courses in quantitative methods here at the LSE as well as in Oxford and, more recently, at Harvard and MIT. I have a strong command of the material of all three of the courses mentioned above, and feel that I could deliver clear and engaging classes. Additionally, I foresee no difficulties in taking either the primary or secondary teaching roles in MY451.

I would appreciate your consideration of my application for these positions.

Yours sincerely,

Jack Blumenau
